HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 3.0 m:** The seaboard of Batanes.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The northern and western seaboards of Babuyan Islands; the northern seaboard of Ilocos Norte.
- **Up to 2.0 m:** The remaining seaboards of Babuyan Islands and Ilocos Norte; the seaboards of mainland Cagayan, Isabela, Ilocos Sur, La Union, Zambales, Lubang Island, and Kalayaan Islands; the western seaboards of Pangasinan, Bataan, and Batangas.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- Severe Tropical Storm GARDO will remain far from the Philippine landmass throughout the forecast period. It is forecast to move generally northward until it exits PAR by tomorrow (26 June) morning or afternoon. Afterwards, it will continue moving northward towards southern Japan.
- GARDO is forecast to remain a severe tropical storm within the next 12 hours and may weaken into a tropical storm tomorrow afternoon or evening. However, the possibility that GARDO will remain a severe tropical storm within the next 24 hours is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
